

BEST PRACTICE 2022-23

Best Practice-1

1- Title: Social Awareness on issues related to health, hygiene, environment, energy conservation etc.

2- Objectives: To educate and make the rural masses aware of Social issues like Drug abuse, AIDS, Population Control, Girl child education, Energy Conservation etc.

3- The Context: The Practice: Extension Activities in Adopted Village

4- Evidence of Success: Report of the Organising Departments

Our college has initiated a unique activity where all the departments of UG and PG have selected an ordinary village in the vicinity to the college to implement various extension activities. IQAC has taken the initiative in selecting the activity to be undertaken by the department in the adopted village, which is found suitable as per the department's subject. All thirteen departments conducted such activities in the adopted village on different days. The people's response to implementing various activities is very encouraging.
